

tknife TRANSFORMING
T-CELL THERAPY

We are a fast-growing, preclinical stage biopharmaceutical company developing tumor-specific T cell receptor (TCR) therapies. Our dynamic, international team sets out with the ambitious goal to revolutionize the TCR landscape using our unique and proprietary transgenic HuTCR mouse platform to produce fully human TCRs for the treatment of cancer. To achieve this ambitious goal, we have successfully completed our Series B financing and could raise 110 million US dollar from international investors in August 2021.

We already made it to a size of over 50 colleagues, and we can't wait to welcome new members to our team. Despite San Francisco, we are located at the BiotechPark Berlin-Buch in the north of Germany's vibrant capital, and our city-office is close to Charité Berlin-Mitte.

For our further company development, we also plan to grow our operations in the US. With T-knife we have demonstrated preclinical proof-of-concept with multiple TCRs. In addition, T-knife has validated the platform for over 90 undisclosed cancer targets and has several drug candidates currently in preclinical development.

To achieve our goals, we are looking for you as our next

Quality Manager (F/M/X)

In that role you will Support T-knife's growing QM/QA team in the implementation, maintenance, and improvement of a pharmaceutical Quality Management System.

The position will be based in T-knife's site in Berlin-Buch.

Your Responsibilities:

- Implementation, maintenance, control and improvement of the QMS
 - Development and training of QM Quality Management Documents: Standard Operating Procedures, Work Instructions, Quality Management Manual
 - Preparation and follow-up of inspections / audits by third parties
 - Monitoring validity of Quality Management Documents
 - Tracking and follow-up of CAPAs
 - Preparation and conduct of internal audits
 - Maintenance of a Quality Training Matrix
-

Your Profile:

- University degree or equal in scientific or health care discipline with work experience in a laboratory
 - Further education as a quality manager, quality management officer or internal quality auditor
 - Sound knowledge of all Microsoft Office applications
 - Ability to work flexibly as well as independently in a team
 - A reliable and responsible way of working
 - Fluent in English in verbal and written communication
-

What We Offer:

- A permanent position in a young, growing, and dynamic company in Berlin
- An inspiring work environment where we shape therapeutic innovations and continuously strive to improve the lives of patients
- The possibility to contribute to the built-out of our innovative and unique HuTCR mouse platform and in the development of novel T cell therapies
- Our company culture develops from a start-up mentality with professional execution, team spirit, motivation, and personal drive
- One of our maxims: **We walk our talk**
